### PRESS RELEASE

#### Rettig Music, Inc. Brings Renowned Brass Quintet *Synergy* To Columbus Area Schools

In their continuing efforts to support music education, Conn-Selmer, Inc. and Rettig Music, Inc., brought brass quintet sensation *Synergy* to schools in Hilliard and Dublin, OH. During the three-day educational concert series on October 30, 31, and November 1, 2007, the ensemble performed for over 2000 students in the Hilliard and Dublin school systems.

Tim Rettig, owner of Rettig Music said, "Rettig Music is very pleased and excited to present this outstanding group to these Columbus area schools. We continue to search for new ways to excite and encourage students to join and stay involved in school music programs. Having a group like *Synergy* perform for the students is a tremendous help in reaching that goal. We are now in the process of planning a winter 2008 tour with the *Synergy* group for our schools in northern Ohio."

During their tour of Columbus, *Synergy* played a special afternoon performance for The Ohio State University Marching Band. The group performed to a standing ovation for over 200 band members and staff. In turn The Ohio State University entertained the group by performing several of their traditional songs along with the songs from Saturday's half-time show.

The *Synergy* Brass Quintet, playing exclusively on Conn-Selmer instruments, performs an average of 300 engagements per year. They travel worldwide showcasing their unique, high-energy performance to thousands of young musicians worldwide. As part of their arduous performance schedule, *Synergy* dedicates much of their time to educating tomorrow's musicians and music-lovers by teaching the various genres of music and composer backgrounds in an accessible format during their concerts. With their brilliant precision and technique combined with fantastic showmanship, their goal is to inspire a passion for music in the next generation.
